Speedi-Stage Staging Brochure

Speedi-Stage is one of the easiest and quickest stage systems to move and set up. It opens out in seconds, and requires the minimal of storage space.

It is constructed from high quality aluminium and steel to provide a strong yet relatively light system.

This combined with the range of essentials that compliment the system make it an ideal solution for where storage space is at a premium.

Platform Decks

The platform decks open up to 2.5m x 1.25m which weigh 85kg and feature a heavy duty inset 21mm black stained Beech blockboard. They can also be supplied with an optional 4mm thick industrial quality carpet in a choice of 4 colours.

The leg heights available are 400mm, 600mm and 800mm.

The closed height of the platforms is 1.75m. Six sections when stored take up a floor area of 2.5m x 1.25m.

Stained Black

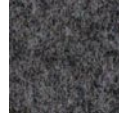

Anthracite Carpet

Dark Blue Carpet

Dark Grey Carpet

Dark Red Carpet

Stage Valance

The flame retardant, pleated velour valance has a Velcro® fastening for attaching to the edge of the deck platforms. Velcro® for the stage edge to be purchased separately. The valance is available in 5 popular colours. Conforms to BS5867 Part 2, Type B.

Navy Blue Valance

Royal Blue Valance

Wine Valance

Black Valance

Greenwood Valance

Guard Rails and Step Units

The guard rails simply link to the side of the stage decks. Each rail is 1.25m wide x 1.1m high. The step units simply bolt together and link to the side of the stage.

Storage Trolley

The guard rails can be stored neatly away in the sturdy wheeled trolley, which can hold up to 12 sections.

Any configuration can be constructed using the various leg heights. The opportunities are endless.

To order please select the deck colour, leg height, length and colour of valance if required, plus any essentials.
